

## FM Conway secures 6-year street lighting contract with the Royal Borough of Greenwich

Leading infrastructure services company FM Conway has been awarded a long-term contract to provide high-quality street lighting and maintenance services in the Royal Borough of Greenwich.

The contract, which begins on June 1, 2021, will run for six years through to March 31, 2027, with the option to extend for up to a further four years to 2031 should the borough choose to exercise it. The estimated value of the contract is up to £24m.

The scope of the contract will see FM Conway deliver street lighting LED lamp and column replacement, inspection, maintenance, repair, improvement, and new works in the Royal Borough of Greenwich. The contract will also cover works within the public highway, parks and housing estates, including LED lamp and column replacement works, inspection, supply, maintenance, improvement and repair to street lighting and associated equipment, such as illuminated signs.

### **FM Conway Lighting Director, Graham Cartledge, said:**

*“This is a fantastic opportunity for the Lighting division, that continues to support the London boroughs to transform their lighting stock to a more environmentally-friendly Lighting lamp (LED), and contributes to reducing the energy consumed (carbon footprint) within their borough. At FM Conway we are working to provide sustainable solutions to support the boroughs from switching their lamps to LED, as well as installing EV chargers into street lamp columns, and recycling both the concrete lamp column and the lamp fittings for a greener London.”*

### **About FM Conway**

FM Conway is a leading infrastructure services company delivering vital services in transportation, the built environment and open spaces for communities and businesses.

We inspect, design, build, enhance and maintain essential infrastructure services for the community.

With 60 years' experience, we pride ourselves on being an industry leader and innovator, especially in recycling and reuse. We have a network of asphalt and aggregate recycling manufacturing plants serving London and the south of England, as well as a Thames side wharf and our own research and development laboratory. We have the ability to produce asphalt with a high recycled content and low carbon footprint.

We are a member of the British Safety Council, the Civil Engineering Contractors' Association, and the Quarry Products Association, as well as being BSI registered for environmental and quality management.
